Q: What is the purpose of summer school?
Summer school serves two purposes: one is credit recovery (grade replacement) for those wishing to improve a grade they received during the regular school year; the second is for those students wishing to take a summer school course for the first time to open an opportunity for another class during the school year.

Q: How much does a summer school class cost?
Each class in summer school costs $295. However, students who qualify for free or reduced lunch will receive a fee reduction. Fees are payable at the time of registration. Students not completing payments by the midpoint of summer school will be asked to leave the program.

Q: What classes do most students take in the summer school program?
Incoming ninth graders usually sign up for Personal Fitness, Health or Geophysical Science. However, a variety of classes are offered in Math, Science, English, and Social Studies. It is not recommended that students take two semesters of the same course during the summer school program for credit recovery (e.g. Algebra I, Semester 1 and Semester 2). Students unfamiliar with swimming should consider taking Personal Fitness during the school year.

Q: I’m replacing a grade on my transcript. What do I need to know?
The course you take in Summer School MUST be the EXACT course you took during the school year. For example: An Algebra I grade in Summer School will replace an Algebra I grade on your transcript. It will NOT replace any other math class grade (e.g. Algebra I Honors).

Q: What is the tardy policy of summer school?
Three tardies is the limit in each class. Because of a short break in each class attendance/tardies are marked twice in each class each day. Students tardy more than three times in any class will lose credit in that class.

Q: What special services are provided students during summer school?
There may be some special education classes provided in the summer school program. Please check with the PCEP Special Education Department. However, regular school IEP’s do not apply to the summer school program. Students receiving special education services during the school year should talk to their counselor and special education teachers before registering for the program.

Q: Are bus or cafeteria services provided?
There is no bus service provided during summer school. Students may drive to school without special parking permits. Cafeteria services are provided and students may pay for lunches using their food service account.

Q: Is there a phone number to call for further information?
The summer school phone number is 734-416-2974. Please leave a message and someone will get back with you. The summer school phone is manned from April through July.
