

Research

Connected Mathematics has been reviewed by the following two national panels:

The American Association for the Advancement of Science (AAAS) rates Connected Mathematics the highest in a ranking of twelve middle school mathematics programs. (January 22, 1999)

The United States Department of Education's Expert Panel has designated the Connected Mathematics program as an exemplary mathematics curriculum. Connected Mathematics is the only middle school program to receive this award. (Fall, 1999)
